

I have been an XM Radio subscriber for 3 years, I have it in two vehicles and a home based model also. The variety and quality are unmatched by any local radio station. This is a service I pay for and do not think it should be up to the National Association of Broadcasters to tell me what I can listen to. I urge the FCC to reject NAB's petition 04-160 and support XM radio's ability to provide the kind of programming I want to listen to.

Respectfully,
Darrin A Dame
